

SAFE ZONE:

All artwork elements (text, images, graphics, logos, etc.) must be kept within this zone.

Keep all elements away from the **cutline** (pink lines).

TRIMMING ZONE:

Place all text, fill colors, patterns, lines, etc. around this zone to ensure that any elements are recording in the registration area when the registration is done correctly.

BLIND ZONE (L/D) (white):

Place all registration marks, background images, etc. in this zone to ensure that they are not recorded in the registration area.

IMPORTANT:

Please ensure all registration marks are placed in the registration area and not in the **cutline** or **trimming zone**.
